IMPORTANT ANNOUNCEMENT.

Grand Display of French Millinery, &c.

MISS SHEEHAN & CO.,

WOULD respectfully announce to the ladies of Janesville and vicinity that she will open, for inspection, on Thursday, Friday and Saturday, May the 17th, 18th and 19th, 1860, a choice and select assortment of

MILLINERY GOODS, &C.

The stock embraces everything that is new, novel and fashionable in the market, such as as Ribbons, Ruches, French and American Flowers in every color, style and price. Ladies Dress Caps, in endless variety. Misses' Bonnets, Flats and Riding Hats, all prices, in fact every article which constitutes a First Class Millinery Establishment may be found here, all of which I will sell very low prices, being enabled to do so from the fact than I buy my goods for cash from the best houses, both in New York and Chicago.

Miss Sheehan & Co. feel confident, from the long experience in the business in all its various branches which we have had, together with every facility for buying, that she cannot fail to suit the most fastidious both in style, durability, elegance and cheapness.

Ladies in want of a fashionable Bonnet will find it to their interest to give us a call before buying elsewhere.

Respectfully submitted,
MISS SHEEHAN & CO.
Janesville, May 8th, 1860.

DAILY GAZETTE.

From the Rochester Democrat and American.

The Zouaves—Their History and Characteristics.

When Marshal Bugeau led the campaigns of Algiers, he found the French infantry too heavy for the required service. Their uniform was a blue frock coat, and dark red pants, both of thick cloth, with equipments of corresponding weight. Taking a lesson from the English, as shown in the Sepoy service, Bugeau sought levies among the friendly tribes and formed them into regular corps. These men were peculiarly adapted to the exposure and exigencies of a burning climate. They were bare of leg and arm, or if the former were covered at all, it was with the loose flowing trowsers of the Orient. A turban to protect the head, and a tight jacket, with moccasins were the only essentials of dress; and being thus unincumbered, their speed and agility, distanced the regular troops on all occasions of rivalry. So successful was the experiment that it became identified with the French service, and the despatches from the army of Algiers familiarized the nation to the new and fanciful name. As the original levy had been made among a confederacy of the Kabyles, called Zouaoua, a generic term was thus derived. It is erroneously pronounced Zouaive, Zoueeve, Zouaave, or Zoove, but the proper sound is Zwave or Zwaave.

The Zouave is to the regulars of the line what Mercury was to the Gods—

"New lighted on some heaven kissing hill."

But to the agility of the acrobat is added the fury of the gorilla, and the endurance of the wolf. The aboriginal Zouave knew nothing of the weakness of humanity. He needed no bed but the sand, and like the camel was at home in the desert, while to extremes of cold he seemed equally indifferent. For this reason, they were the most efficient troops in the terrible campaign of the Crimea. But previous to this the war department had adopted this system, and French recruits were drilled and equipped in Arabesque style and shared the name of their swart allies. While the heavy British infantry was struggling with its incumbrances, the arrowy Zouaves accomplished wonders. They seemed like very demons of the camp, happy even in its water soaked trenches, and loathsome rations, and rejoicing in the music of shot and shell. Many were so expert with the Minnie rifle that it was their pride to pick off a "Russ," before breakfast, and in the last terrible struggle—the storm of the citadel—they were the first to wave the tri-color from the Malakoff.—Here their power at close quarters was displayed in the most horrible manner, and the Russians were bayoneted at their guns with a rapidity that seemed superhuman.

The Zouave therefore is the symbol of light infantry in its highest perfection. It is the consummation of Napoleon's grand idea, for though he carried his points by flinging column after column to the attack with the utmost prodigality of blood, yet it was simply because the pressure of war afforded but little time for discipline, and he rather depended on numbers. The system will no doubt be as useful in America as in Europe, and the splendid illustrations of its efficiency, as afforded by the Chicago Zouaves, are fresh in public memory. At the head of this company the lamented Ellsworth electrified New York, and astonished even the accomplished "Seventh," the pride of our state militia. Col. McQuade, of whose noble regiment we have spoken, has a Zouave corps, which will in time rival that of Chicago. It drills closely nine hours per day, and before breakfast six miles of double quick movements are gone through. We need hardly add that in manual exercise preference is given to Hardee, over Scott, although the latter is authority in the regular army.

The death of Ellsworth has increased that interest which attached to his name, and to the system which he Americanised. He was the prince of Zouaves and will never have his peer. But the glow of his enthusiasm abides with his comrades, and he will still live as the grand master of a new school of military science. Like Bayard of knightly day, he was its *chealier sans peur et sans reproche.* More than this, he was a true son of America, of whom Byron might have said—

"—— Such minds be nourished in the wild,
Deep in the unpruned forest, midst the roar
Of cataracts where nursing nature smiled
On infant WASHINGTON." *Macaulay.*

A REBEL GENERAL AS A SLAVE OWNER.—The Washington correspondent of the Evening Post gives the following picture of the conduct of Col. Lee, now a general in the confederate army and who is the proprietor of the place generally known as the Arlington Heights. He married Miss Custis and thus acquired the estate.

General McDowell has a beautiful spot for his headquarters, the well-known Arlington House, and Gen. Lee's old servants seem to delight in caring for the new occupants of the place. Lee was a hard master, as many a kind-hearted house in Washington, who has given his slaves something to eat on Sundays, knows. He took with him all the smart slaves, and left behind the old and the infirm and the very young. Yet every one of these slaves is legally entitled to his freedom. Mr. Custis, in his will gave them all their freedom. But gave to Lee, his son-in-law, certain temporary power over them. This he has used very roughly, utterly refusing to show the will to any of the friends of the slaves, who were anxious to see that their rights under Virginia law were secured to them. There is a toothless old woman on the place, who for ten years has been obliged to rise at daylight and knit till dark—it is all she can do—to secure to herself a few of the comforts necessary to old age. Lee has been in the habit of giving her weekly *a peck of unground corn and two salt herrings.* These facts were known to me before the present troubles began. A slave girl of sixteen attempted to run away from the plantation a year since, and was caught. Gen. Lee ordered her to be stripped to the waist and whipped, and this was done in the presence of her mother. After the whipping, the girl was taken to Richmond, and then forwarded to some cotton plantation. It is not strange that the slaves left behind gladly welcome the change.

News from Missouri.

The news from Missouri is important and exciting. Gov. Jackson must be drunk or he is a fool. No sane man would commence a war with so little preparation and with such slim prospects of success. He may have hopes of aid from Arkansas, but it will not reach him in time, if there is any help for him in that direction. Gen. Lyon is prompt and active, and we may expect very soon to hear that Gov. Jackson is a prisoner, possibly having paid the forfeit of his crimes by his life.

The First Wisconsin Regiment.

The Chicago Tribune says that the journey of our first Wisconsin regiment was a continued ovation; even at night as they passed over the Cleveland and Pittsburgh railroad the people were out to receive them, the Ohio girls "sitting up for them" the whole distance, providing them with numberless tokens of admiration and encouragement, waving their handkerchiefs and showering them with boquets. At Ravenna, Ohio, the citizens insisted on passing thro' the cars, to shake hands with them, at one o'clock in the morning. On the road from Pittsburgh to Harrisburgh, from every hamlet on the hillsides the waving of handkerchiefs and cheers of the inmates greeted the regiment.

Col. Starkweather had orders to proceed to Chambersburg, and is now probably with the army at or near Harper's Ferry.

State Finances.

The treasury at Madison is reported to be empty, and will remain so until the bank tax is paid in on the 1st of July.

It is also stated that the reason the $200,000 loan is not taken, is because the bank comptroller would only receive the bonds at 95 cents on the dollar.

This was a strange decision on his part, when the legislature declared the bonds worth par by providing that they should not be sold for a less amount. We understand that some arrangement will be made, by which the bonds will be received at their face. It is probable that the delay in sending forward the second regiment grows out of the difficulty in paying the men.

Taking all things into consideration, our finances with reference to the war, have not been managed in the best way. It is understood that the expenses so far will reach $500,000, and something must be done speedily to replenish the treasury, but we trust, if it is possible, that the legislature will not be called together again.

We do not desire to cast any blame upon our state officers for the condition in which the treasury is placed, for we do not know that it could be avoided by them, but the difficulties ought to have been foreseen and avoided, while the legislature was together in extra session.

Our own belief is that our Wisconsin currency is just as safe and as well secured as any eastern bills that will be sent out here for circulation.—*Janesville Gazette.*

That may all be strictly true, and yet be a poor argument in favor of your Wisconsin currency. Down here in Illinois the fact has been forced upon us, that "stumptail" currency is just no money at all, whether it hails from Illinois, Wisconsin or the east, and we are acting accordingly.—*Chicago Journal.*

We were not arguing in favor of our currency, but against the folly of substituting another equally as bad, if not worse. Eastern bills may be good to-day, but where is the security for to-morrow? When we get rid of a vicious paper currency let it be for all time.

CAPITOL EXTENSION.—We learn from the Journal that the trenching for the foundation of the west wing of the new capitol is nearly completed, and the workmen have already begun laying the stone. We think it must be evident now to every impartial person, that the work on the capitol extension ought not to have been pushed forward, in these times of financial trouble. The old house would have done well enough for several years.

BANK FAILURES.—The Stanton Times says the Wisconsin Pinery Bank at Stevens' Point, owned by Huyssen & Scheffer, has closed its doors and made an assignment. Several thousand dollars belonging to the county treasurer were in the bank.

The Portage City Register informs us that the Bank of Portage has failed. Its liabilities were $22,574.84, and its assets $15,860. The amount of deposits was $17,012.24. In the assignment depositors were placed in the first class of creditors.

GUARDING AGAINST A SURPRISE—DEATH TO REPORTERS.—One of the special correspondents sent here by a Philadelphia journal, who followed in the rear of Col. Stone's command, with a view to obtain information as to their destination, was arrested last night, within the lines, and confined in the guard house until he gave his word of honor not to publish a word about the forces or their movements. The order, it was said, was given in his presence, to shoot any correspondent that could be caught, who had been guilty, in Col. Stone's opinion, of giving such information. At last accounts the Philadelphian was a meek camp follower.—*Washington Cor. N. Y. World, 12th.*

Letter from a Janesville Volunteer.

The following are extracts from a letter written by Edward O. Wright, to his father, Josiah Wright, in this city:

CAMP BUTLER, near Fort Monroe, June 6th, 1861.

I am sitting on the floor of my tent writing this on the bottom of a chair that I bore off in triumph from the house of a man who claimed to be "Union," but vacated his dwelling, leaving nothing but half a dozen slaves, mostly superannuated, and a little furniture. The colonel has taken quarters on the place, and our camp is only a short distance off. I hope you will make allowances for everything, under the circumstances.

The weather was very fine coming down,—no sea rolling, and very little sickness. We hailed with delight, however, the battlements of Fort Monroe, and the beautiful surrounding scenery—every man impatient to get out of the crowded ship, and take a bath in the waters of the Chesapeake.

The famous steam tug Yankee soon ran alongside, and taking us aboard, landing us about a mile from the fort, next to the camp of Col. Carr's Troy regiment, which arrived the day before.

Almost immediately we started for our camping ground, which we found a short distance off, in a very dusty field of oats, three or four inches high. The colonel gave orders not to pitch a tent; and after satisfying a twenty-four hours' fast with two hard crackers, we stacked arms for the night,—unslung knapsacks, wrapped ourselves in blankets, and laid down upon the ground, ready at a moment's notice to meet an attack from the enemy. We formed for action twice during the night, but both proved to be false alarms.

The next day (Sunday) we pitched tents, and settled down under regular camp discipline. The atmosphere is very balmy,—so much so as to be almost sickish when we first came, but we are rapidly becoming acclimated.

We receive New York papers daily, and things about us in some of them, that make us laugh to read. I have been out on a scouting expedition consisting of companies A, H, I and K; marched ten miles before 9 o'clock, starting at 4 in the morning; reached the secessionists camp which we found deserted, and returned to camp in time for supper. Coming back we found a creek without any bridge, and without any hesitation, officers and men fully equipped, plunged in and swam across. A violent thunder storm came up at the same time, and we were treated to a magnificent shower bath. We had no drill next day, the men being occupied in cleaning muskets, washing and drying clothes, and fixing up generally. We were all very anxious to have a brush with the foe, and were much disappointed when ordered to return, after finding the enemy's camp vacant. They had 500 men, and six field pieces placed in such a position, after cutting down several small trees, as to completely rake a bridge which we would have been compelled to march over to attack them. We stopped at several deserted plantations to refresh ourselves with milk, and hoe-cakes purchased of the slaves. I was glad enough to wrap myself in my blanket that night and lie down to sleep, I assure you. We are sending scouting parties out continually, and there will be no battle of any note until Gen. Butler makes an advance with the full force under his command.

I have been to the fort two or three times: it contains sixty acres, and several houses, stores, machine shops, &c., surrounded by fine shade trees, graveled walks and grass plats, giving everything a quiet, pleasant appearance, and once inside you would hardly imagine you were in the largest fort in the United States. The celebrated Floyd gun is mounted on the beach outside; it weighs fifty thousand pounds and carries a three hundred and seven pound shell seven miles. A wide, deep moat surrounds the fort, and guns of the heaviest caliber are mounted on its walls. One of the regulars informed me that two hundred and fifty men, composing the garrison, before the volunteer reinforcement, slept by their guns night and day for three weeks, not knowing when they would be attacked.

We still wear the red uniform, although somewhat worn and soiled, as the colonel says we have become known by it and must stick to it. Some of the negroes call us the "red devils" on account of our warlike appearance, I suppose, as we have committed no depredations and pay for whatever we get. Our mess have lived almost entirely on provisions bought of negroes since our arrival, as there has been some trouble in the commissary department in furnishing rations to the men, but we are patiently waiting for the fulfillment of some of the promises which have been so lavishly dealt out. It is with great difficulty I have been able to write as much as I have, on account of the noise and confusion, and I shall endeavor to make my next letter more legible and interesting.

A SLAVE PEN.—A correspondent of the Rockford Register thus describes the slave pen at Alexandria, Va., which was "invaded" by the U. S. troops, when they took possession of that city:

From the Marshall House we set forward to the "slave pen" where the company of cavalry were made prisoners, and a negro slave set at liberty who was found chained in the cellar of the pen. The "Pen" belonged to Price, Burch & Co. The sign reads: "Price, Burch & Co., Dealers in Slaves." Here the owners or managers lived in a comfortable house of brick, two stories high. On each flank of the house are walls of brick some twenty feet high, extending each way from the house, some forty feet, and some thirty feet deep, ten feet of the rear side being covered with a shed roof. Under the house is a cell secured by a grated window and a stout plank door, the place where the only slave was at the time of capture. Here in this cell was the place where the iron rings were secured in the floor to which the slaves were fastened—in the east pen was a post where was the staple of iron and the thong to tie a refractory slave for the purpose of punishment, which is done by causing the slave to encircle the post with his arms, and then making his hands fast with a cord. The instrument of punishment was not to be seen.

Telegraphic.

REPORTED FOR THE DAILY GAZETTE.

BY WISCONSIN STATE TELEGRAPH LINE, Office in Union Passenger Depot.

Last Night's Report.

ST. LOUIS, June 15.

Eight thousand troops left Hannibal on Thursday for some point in the interior, supposed to be Chillicothe, to protect the bridges on the Hannibal and St. Joseph railroad.

Officers of the Missouri river steamers who arrived to-day say the impression prevails that Gov. Jackson would make the first stand at Booneville. Cannon and shot had been transferred from Jefferson City, and preparations were being made for a resistance at that point. Booneville is situated on a bluff about twenty-five miles above Jefferson City, and is connected by good roads with Cooper, Saline, Howard, Chariton and Boone counties, and the south-western part of the state.

Rumors are current that the state convention is to be called together.

W. Morrison, state treasurer, was arrested yesterday at Washington, on his way to Jefferson City, but was released after a brief detention.

The Evening News learns from a gentleman just from Fort Smith, Ark., that Ben McCulloch is there at the head of 10,000 troops, many of them Cherokee Indians, well armed and mounted on Mustang ponies, ready to march into Missouri at a given signal. This news needs confirmation.

The Democrat issued an extra this afternoon containing correspondence from the military expedition up the Missouri river, and a dispatch from Jefferson City announcing the arrival of the steamers Iatan and J. C. Swon at that place about 2 o'clock, where they were met with an enthusiastic reception from the loyal citizens. The city was quietly occupied by Gen. Lyon and his command. The capitol buildings were taken possession of, and the stars and stripes raised over the cupola amid many demonstrations of delight from the citizens.

Gov. Jackson was at Booneville yesterday with a body guard of one hundred and twenty men.

A letter from Springfield, Mo., says that between six and seven hundred secessionists arrived under the militia bill. Union men also rallied to the number of twelve to fifteen hundred, armed with rifles and shot guns. They are determined to sustain their position; they are organized under Col. John S. Phelps.

Reports from the border state that Ben McCulloch was encamped in Benton county, Ark., with a force of 5,000 troops.

The first battallion of Col. Sigel's regiment reached Rolla, the terminus of the south-western branch of the Pacific railroad, yesterday afternoon, where they go into camp for the present.

About one hundred and eighty state guards fled on the arrival of the United States troops.

The secession flag was taken down, and the stars and stripes raised in its place.

Gen. Lyon's expedition received many manifestations of approval along the line of the river.

NEW YORK, June 15.

The schooner Savannah, a privateer in charge of Midshipman Cook, arrived this p. m., with the stars and stripes flying in triumph over the secession rag, captured by the brig Perry, about 60 miles off Charleston.

She had taken the brig Joseph F. Rickland, and sent her into Georgetown, S. C. She is a schooner with an 18 pound pivot gun amidship, and was formerly a pilot boat. Her crew of thirty were put in irons and transferred to the frigate Minnesota.

CINCINNATI, June 15.

John A. Skiff, commission merchant, on Walnut street, was arrested yesterday, and taken before U. S. commissioner, on charge of treason. It was alleged that Skiff within a few weeks past has sent quantities of butter to Louisville, there to be re-shipped for the extreme south. Accused was committed to jail last night.

JEFFERSON CITY, June 15.

The capital of Missouri was taken possession of at 2 o'clock this evening, on the arrival of the steamer Iatan, by five companies of Col. Blair's regiment of Missouri volunteers, under command of Lieut. Col. Andrews, and a company of regular artillery under Capt. Totten, all under command of Brigadier Gen'l Lyon.

The balance of the forces remained on board the J. S. Swon until further orders.

A company of regulars under Major Corant thoroughly searched the country for contraband articles, and found some wheels and other parts of artillery carriages.

No violence was offered, but on the contrary, the boats containing the federal troops were received with enthusiastic cheers by a large concourse of citizens.

Gov. Jackson and the other leading secessionists left here on the steamer White Cloud for Booneville, at 4 p. m. on the 13th.

Much disappointment was manifested by the troops on finding that the enemy had fled. The officers, however, expected no surprise, they having been previously informed of the evacuation.

The troops, under Lieut. Col. Andrews, are now occupying the state house.

One or two houses have been searched for secession flags, but none have been found.

ST. LOUIS, June 15.

Arrangements have been made by which despatches from all eastern points can be transmitted to Kansas, Nebraska, and all points in western Missouri, via. Quincy & Hannibal R. R., during interruption along the Missouri river. California despatches take the same route.

Col. Solomon's regiment, with four field pieces and a company of cavalry, go out on the Pacific railroad to-night, and another force, 800 or 1000 strong, leave in the morning. Five batteries of four guns each, mostly 12-pounders, two 8-inch howitzers, and one 10-inch mortar. Two companies of cavalry accompanied Gen'l Lyon's expedition to Jefferson, and Col. Sigels' command on the south-western branch of the Pacific railroad.

OTTAWA, Ill., June 15.

The American, United States, and Adams' express companies have severally offered to transmit all monies for the Douglas fund free. It is desirable that all persons making remitances should do so by express, taking the company's receipt, to Judge Drummond, Chicago, directing to me at Ottawa.
(Signed,)
J. D. CATON,
Receiver of Douglas Fund.

SANDY HOOK, Md., June 15.

Accounts are conflicting from Harper's Ferry, some saying all the troops have left, others that a large force is at Bolivar and in the outskirts.

PHILADELPHIA, June 15.

Special dispatch from Hagerstown says the advance guard of Gen. Patterson's division, about 10,000 strong, arrived there this a. m. and the whole column is rapidly moving southward.

WASHINGTON, June 16.

Special to Commercial—More regiments went into Virginia to-day. Hon. H. May, newly elected congressman for the Baltimore district, declares to his friends that he is out and out a Union man.

The election throughout the state is an entire Union triumph.

Another rebel battery has been discovered 10 miles below Acquia creek, near Mathias Point, opposite Port Tobacco. It will receive attention in due time.

Government is negotiating for the purchase of 3 steamers at Baltimore for war vessels. Arrangements will be made in a few days to prevent the publication of important movements of our troops, especially those having reference to the rebels.

ST. LOUIS, June 16.

Jeff Rogers, with $45,000 in treasurer's warrants, designed to pay soldiers employed in the south-west expedition last winter, and the steamer McDowell, lying opposite here, are in possession of the federal forces.

Company I of Col. Power's regiment, which went out on the north Missouri road Saturday, returned to-night with a secession flag. Eight prisoners were captured at Wentzville.

FORTRESS MONROE, June 15, Via. Baltimore, June 16.

Troops will extend their lines several miles further from the fortress.

An artesian well is being sunk to bring fresh water to the troops.

LOUISVILLE, June 16.

The steamer Prioress, from Madison, Indiana, brought down seven hundred barrels of pork and three hundred casks of bacon, a part of which she landed. Subsequently, taking all on board, she returned to Madison with her cargo.

ARLINGTON, June 15.

Lieut. Tompkins' company of cavalry reconnoitered last night near Fairfax Court House, but saw few secessionists.

HAGERSTOWN, June 15.

A messenger has just returned from Harper's Ferry. Two companies still remain on the heights, consisting of about 600 men. The greater part of the 14,000 stationed there had gone south to join Beauregard's and Lee's forces.

It is said that Wise's forces were marching to oppose Gen. McClellan's western troops. Wise has 3,500 men at Staunton, one regiment of which has already marched.

It is reported that about seventy locomotives have been burned by the rebels below Opeque, near Martinsburg.

Rebel pickets have again returned opposite Williamsport.

Reliable information just received states that the rebels have just evacuated Leesburg, after burning cars and locomotives.

Gov. Hicks arrived at Hagerstown, visited the camps and received cheers.

Cadwallader's division passed to-day.

BALTIMORE, June 16.

Two regiments left Camp Patterson to-day for Washington.

A correspondent of the American at Harper's Ferry says that the rear guard left at noon yesterday.

The army encamped near Charlestown, near where John Brown was hung.

It is said that there never has been any powerful batteries erected in the mountains; but one of small guns commanding the bridge.

It is alleged that three car loads of coffee and sugar from the west, were stopped there, which contained strychnine, and were thrown into the river.

None of the piers of the bridge are damaged. Work will be put across and travel resumed in a few days.

Most of the inhabitants of Martinsburg have left, expecting a great battle there.

The federal troops were greeted enthusiastically. They said that the cause of the evacuation of the ferry was that Beauregard said the position was indefensible, liable to be starved and cut off.

WASHINGTON, June 16.

The 3d Michigan regiment has arrived. Nine rifled cannon arrived to-day. Six were immediately sent forward.

PEORIA, June 15.

Fire this morning in the dwelling house of Jas. Miller, spreading to adjoining buildings. Principal losers, James Miller, $10,000, Bennett Harrison, $3,500, C. J. Peck $10,000. Other losses will make the total from $35,000 to $40,000. Insured for $25,000.

ST. LOUIS, June 15.

Two 6-pounders and about 200 balls, manufactured at Hannibal, Mo., were seized by a company of the Hannibal Home Guards under Lieut. Crandall on the night of the 12th, and taken back to Hannibal by railroad. The cannon were en route to Chillicothe for the use of the secessionists.

The Democrat learns that 2500 troops composed of two Iowa regiments under Col. Curtiss, and a battalion of Illinois volunteers from Quincy are expected to form a junction with Gen. Lyon at Jefferson City to-morrow.

Two companies of Col. Brown's regiment of reserve corps went out on the North Missouri R. R. yesterday, to protect the bridges on that route.

Major-General McClellan addressed the troops at Cairo on the 13th, promising them that they should be the leaders of the Great Western Army, and that ere long they should have an opportunity to meet the rebels.

Special despatch to the Chicago Tribune.

CAIRO, June 16.

Since the departure of Gen. McClellan there have been no stirring events transpiring in Camp Defiance. The clouds of war are, however, thickening fast, and important movements will doubtless be made shortly from this point. Since the news from Missouri of the occupation of Jefferson City by the federal troops, great excitement prevails in southwest Missouri where the secessionists are very strong.

There is no doubt but what Governor Jackson's call for troops will be responded to strongly in that part of the state, and that some active work will be cut out for Gen. Prentiss in that quarter. The same excitement exists in southwestern Kentucky, and doubtless the rebels there will co-operate with those in Missouri.

There is no news of importance to-day from the south. The rebels are strengthening their forces daily from Union City down, and fortifying their positions.

The health of the camp continues excellent, there being no dangerous cases of sickness to report.

Special despatch to the Chicago Tribune.

WASHINGTON, June 16.

Information of a positive nature was received at Col. Heintzalmann's head-quarters in Alexandria this morning, that movements of the rebel camps at Manassas Junction, undoubtedly indicating an intention to retreat from that point were going on all day yesterday. A large number of wagons were concentrated at this point, and the troops were busily engaged in packing up, as if for departure. All their stores were being loaded, clearly proving that a retreat, not on advance, was contemplated.

It is believed in military circles here that the rebel forces will fall back from the Junction to Manassas Gap, twenty miles west of their present camp.

Insurgents at Manassas are reported to be suffering greatly for want of water and medicines. There is much sickness among them, caused by their unusual labor and exposure. Slaves cannot be safely brought up to their front to do the heavy work, for fear of an escape.

Advices have been received at the war department to-day, announcing that Col. Stone's brigade, consisting of one thousand district militia, New York 9th, Pennsylvania 1st, Maine 1st, and New Hampshire 1st, with some artillery and cavalry, crossed the Potomac yesterday at Edward's Ferry, and marched in and occupied Leesburgh, five miles from the river, without meeting resistance.

Leesburgh is the terminus of the Hampshire and London railroad, and its occupation shows direct communication between the federal forces now advancing into Virginia from Harper's Ferry, and the army in and about Washington, and renders the position of the rebels at Manassas Junction wholly untenable.

The entire secession force at Harper's Ferry has doubtless retreated to Winchester. General Scott received news of the occupation of Harper's Ferry by the advance guard of Gen. Patterson's army last night. The federal forces also crossed the river at Point of Rocks, eight miles below, and at this moment at least forty thousand troops are on Virginia soil, and on the strategic line from Alexandria to Harper's Ferry.

It now looks as though General Scott's promise to have the stars and stripes floating over Richmond on the 20th proximo would be made good.

The 3d Michigan regiment arrived here this evening.

ST. LOUIS, June 16.

News has been received here that the secessionists have burned the bridges on the North Missouri railroad, at Sturgeon and Centralia, beyond St. Charles. This bit of vandalism was perpetrated by a secession military force under command of Captain Hitch. He would have made greater destruction had not the farmers along the route turned out and prevented it. A regiment left St. Charles last night to protect the road.

It is reported here that Col. Curtis' Iowa regiment had a skirmish on the Hannibal & St. Joseph road, killing and wounding several of the rebels.

Two regiments left here to-day for the southwest branch of the North Missouri road. Thirty-nine cars loaded with military stores left yesterday for Rolla.

Col. Sigel's regiment pushes on to Springfield, Mo., at once. It is an eminently disloyal neighborhood.

A proclamation to calm and reassure the people of the interior has been issued at Jefferson City, by Gen. Lyon. It has not yet been received here.

Ben. McCulloch will have his hands full in protecting Arkansas from the inroad of our loyal men. He is supposed to be the leader upon whom the rebels rely for aid which will not come. It is now thought, such is the promptness and vigor with which Gen. Lyon has acted, that all danger of an invasion of Missouri by the confederate forces is at an end.

WASHINGTON, June 15.

First and second Ohio, second and third Connecticut regiments proceeded across the river last night, and took positions between Arlington Heights and Alexandria.

No sign of forward movements on the Virginia side.

Six more regiments from Ohio and one from Iowa accepted for the war. The colonelcy of the latter has been offered to Fitz Henry Warren.

QUINCY, June 16.

We learn from a messenger from St. Joseph last evening that Col. Curtis, of the 2d regiment of Iowa, had established his headquarters at St. Joseph. His forces are distributed over about 100 miles of the Hannibal and St. Joseph railroad.

Col. Bates' forces, the first Iowa regiment, are distrtbuted along the same road, on each side of Hudson. He had taken two engines off the North Missouri railroad to prevent their being taken apart by the rebels.

There are no troops at Hannibal. About 100 are stationed at the bridge near Palmyra.

Fears are entertained there by Union men of an attack.

Last night Col. Smith was solicited to go to their aid. He did not think it expedient, however.

Some of Col. Curtis' regiment had a difficulty at a station twenty miles east of St. Joseph. The station agent's son had some words with a soldier, and said he would take no sauce from an abolitionist. He raised a pistol, either to frighten or to fire. The soldier raised his musket and shot him.—He died instantly, the ball passing through his heart.

WASHINGTON, June 16.

Scott received information that the rebels were concentrating all their forces at Manassas. Scott has no doubt that the rebels will make a stand there.

A high military officer thinks there will be a movement on Manassas Junction soon.

The rebels there were talking freely of attacking Washington, and seemed quite sanguine of capturing it.

ALEXANDRIA, June, 15.

The thermometer is at 105° in the shade.

The people of Vienna are in communication with the rebels. Their scouts were up there yesterday, and report the federal troops at Leesburg.

NEW YORK, June 16.

The Times' dispatch says Gen. Butler demanded 15,000 more troops, and will have them in a few days.

Gov. Morgan promised the government to send a regiment from New York every three days until the full quota is dispatched.

A signal balloon was seen last night at considerable elevation over and above the Chain Bridge, on the road to Leesburg—supposed to be sent up by the rebels.

To-Day's Report.

[Reported Exclusively for the Daily Gazette.]

MORNING DESPATCHES.

BALTIMORE, June 16.

Special to Herald.—Three hundred confederate troops reported at Leesburg. They will doubtless retreat at the approach of our troops.

Col. Morehead's regiment of Pennsylvania soldiers, encamped at Locust Point, marched through the streets this a. m., enroute for Washington, where an important movement is confidently predicted within a short time.

We have a report that Gen. Butler will make a demonstration towards Yorktown within 48 hours.

Accounts of the battle at Bethel, through secession channels, give but one killed and 3 wounded. The one killed was shot by Duryea's Zouaves, while lying at a building in which troops had taken refuge from Col. Magruder's guns. They further report that they had no rifled cannon and nothing but howitzers. They deny the approaches of Butler on Yorktown. Masked batteries line the route.

WASHINGTON, June 16.

An army officer has just arrived here from Cairo with despatches for Gen. Scott. He states that intelligence had been received there that the rebel force, under command of Gen. Pillow, had everything in readiness and were expecting to move towards Cairo on the 18th inst. They have transports sufficient to carry 10,000 or 20,000 troops. The commander at Cairo had no doubt of his ability to resist any force the rebels might bring against him.

It appears from information communicated to our officers that Pillow was expecting aid from Kentucky and Missouri, the governors of these states having given him assurances to that effect. Arrangements have been made by the United States which would prevent any such aid. It is understood to be the intention of the government to request of the commanding officer in the southwest to concentrate more troops in that vicinity.

NEW YORK, June 17.

Steamer Belleville arrived from Havana, on the 15th. Sugar unchanged. Stock 240,000 boxes.

A detachment guarding a propeller sent here from Annapolis with stores, &c., was attacked on their return below Acquia Creek.

Saturday several shots fired by the rebels were returned with grape and canister. No injury was done us.

Herald's despatch.—There is reason for confident belief that Gen. Scott is fully prepared to keep the rebel chiefs on the back track till they shall have evacuated Virginia and Tennessee.

The whole rebel force except the rear guard at Manassas Junction are said to be returning to Richmond.

Every point on the Potomac from Williamsport to Acquia Creek is now guarded by federal troops.

POINT OF ROCKS, June 15.

The World's special give additional particulars of the Harper's Ferry evacuation. It appears that the flint lock muskets, sugar, coffee, cotton, machinery, &c., which they could not take away, were thrown into the river, nothing left of any value. The rebels received information that the federal troops were going to Winchester to fortify it and cut off their retreat, which caused their retreat to that place, where they will be reinforced from Richmond. It seems there were from 15,000 to 20,000 troops at the ferry. The Kentucky and Mississippi troops said they came to fight and wanted to go and take Washington on their own account. At the Point of Rocks 64 of the rebel cavalry are reported to be across the river.—The rear of the main body of the rebels was only 10 miles from the ferry at noon.

WASHINGTON, June 16.

Times' Correspondence.—Col. Lauder has left Phillippi where he was at the head of 5 regiments, and it is supposed he has made a forced march across the mountains to Winchester—distance about 50 miles.

Tribune's Despatch.—President is working hard. He will take the highest ground in favor of prosecuting the war with utmost vigor, and finishing it by winter if possible. He calls for a half million men, and appropriating—[Here, says the operator, the line busted.]

AFTERNOON DESPATCHES.

FT. MONROE, 16th, via Baltimore 17.

A person just from Newport News reports a skirmish there this morning.—Three companies sent out by Col. Phelps to drive in cattle belonging to secessionist were fired upon by a company of light horse, and three men wounded. The rebels escaped and the detachment succeeded in its purpose, the rebels evidently joining a large body of troops at the point seven miles above Newport News on the same side of the river. Steamers come down the river daily. An attack from that quarter anticipated.

The experiment with Sawyer's American rifled cannon at the Rip Raps last evening was a brilliant success. Sewall's Point is clearly within range of these guns. Seven of the eleven are 48-pounders. The shells exploded a short distance from the rebel camp, and one of them over their entrenchment. It created a sensation among the secessionists.

NEW YORK, June 17.

The steamer Peerless arrived here from Toronto, under American colors.

The steamers Atlantic and Baltic are to be converted into gun boats.

The Florida and Augusta are coaled up, ready to transport troops.

FARTHER POINT, June 16.

The Jura from Liverpool, evening of the 16th, via. Londonderry 7th, passed this Point at 7 o'clock for Quebec.

Lord John Russell said in parliament the government had no knowledge of the Canadian volunteer regiment tendering services to the U. S. government, and of course could not say what action would be taken.

Five cases containing one hundred rifles directed to the Commercial Bank, N. Y., intended for the steamer Adriatic, were stopped at Galway, the agent of the line refusing to let them pass.

ITALY.—Count Cavour died on the morning of the 6th. The event caused a profound sensation.

It is rumored that Garabaldi contemplates a visit to America in a month or two if the war in Italy appears unlikely.

Latest commercial by telegraph to Londonderry from Liverpool—flour dull with declining tendency. Wheat dull and irregular. Chicago and Milwaukee, 11s.

INDIANAPOLIS, Ind., June 17.

The Indianapolis Journal has received the following special despatch from Col. Lew. Wallace, commander 11th regiment Indiana volunteers at Cumberland, in regard to the fight at Romney:

"CUMBERLAND, Md., June 16.

"After the fight at Romney the rebels did not rally and return. They ran 16 miles towards Winchester before they stopped.—So far from my retreating I brought into camp at Cumberland their tents, valuable arms, uniforms and medical stores, without leaving anything behind. Their rout was total. Next day there were 7 found in the town. We killed a captain, an ex-member of the legislature, and took one of their majors prisoner. I send you this to stop the infamous slanders about retreating, started by some cowardly scoundrels in Alexandria. My boys are entitled to all honor, and they won it bravely. They have not forgotten Buena Vista. Signed,
LEW. WALLACE, Col. 11th reg."

ST. LOUIS, June 17.

Report says that Brigadier General Slack while mustering troops into the service of the state at Chillicothe, was taken prisoner by Col. Curtiss, of U. S. Volunteers, on their way to St. Joseph. It is understood that Slack will be taken to Fort Leavenworth.

LOUISVILLE, June 17.

The New Orleans Delta of the 13th says the common council appropriated $20,000 for the defense of the city, and $50,000 for the support of the families of volunteers.

The ships David and Land, from Bordeux, were ordered off the bar and sailed for Philadelphia. The ships Africana and Parsons went to sea on the 12th, and the National on the 11th. The only ships inside the bar were the Alhambra, Vigiliant and Ikon.—The yacht Gibry under British colors was taken at Pa Loutre on the 12th by the Brooklyn.

The Charleston Mercury gives the number of confederates killed at 17, at Great Bethel.

Savannah Republican of the 12th says a large number of federal troops landed on the 11th at Hilton Head. Their object was not known. There was great excitement there.

Fire Department.

The members of the Fire Department will meet at the house of Engine Co., No. 2, on this (Monday) evening, June 17th, at 8 o'clock, to make arrangements to escort Capt. Wheeler's company of volunteers to the depot, on their departure from this city. W. B. BRITTON, Ch'f Eng.

☞ The ladies of the Congregational Church are requested to meet at 7 o'clock this evening (Monday) at the ringing of the bell. By order of committee.

MASONIC GRAND LODGE OFFICERS.—At the annual communication of the Masonic Grand Lodge of this state held in Milwaukee on the 11th inst., the following officers were elected for the present year:

Alvin B. Alden, of Portage city, Grand Master.

G. W. Washburn, of Oshkosh, Deputy Grand Master.

A. S. Wood, of Madison, Grand Senior Warden.

J. B. Moore, of Muscoda, Grand Junior Warden.

S. S. Dagget, of Milwaukee, Grand Treasurer.

W. T. Palmer, of Milwaukee, Grand Secretary.

DAMAGE BY THE WIND.—The gale on Saturday was more destructive and unpleasant than the day before. A number of fruit and shade trees were blown down in different parts of the city, and a great many had limbs blown off. Shrubbery, flower beds and garden vegetables also suffered much, both from the force of the wind, and the rapid evaporation of moisture, which was a remarkable characteristic of the gale. Yesterday and this morning the weather is cool and the earth dry and parched. We fear the crops will soon suffer for want of rain.

We have heard of corn fields where a portion of the corn was uncovered in a part of the field and literally covered up in another part.

MUSTERING IN.—The Madison Journal says that "Capt. McIntyre has decided to muster in the companies comprising the other regiments, just as fast as they reach this city, instead of mustering in by regiments, as heretofore.

"In consequence of this arrangement, Commissary General Wadsworth has withdrawn his offer for proposals to furnish the volunteers with rations. These will be supplied by the United States, and we understand that Capt. McIntrye has already agreed with Mr. McGonigal to supply them."

This being the case we do not see where further expense to the state is to be incurred. Perhaps this may obviate the necessity of selling the bonds authorized at the extra session.

☞ The Rock County Sharpshooters, Capt. Gillett, of this city, have reported full for the war.

MILITARY ITEMS.—The Madison Journal of Saturday says:

The governor has sent messengers to the companies in the 7th regiment, to ascertain their condition, and what day they will be full for the war.

The companies composing the 8th and 9th regiments have been notified that they must report, without delay, as to the time when they can meet a mustering officer with full ranks for the war.

Edwin R. Chase has been commissioned as commissary sergeant of the second regiment.

☞ A maxim for inquisitive young men: "Ask no questions and you will be told no lies." A word to the wise is sufficient.

REFRESHING.—The ice cream at Ellis & Bro's, opposite the American, is of a decidedly refreshing tendency. Having tried it, we speak from personal knowledge.

MUSIC IN CHURCH.—Last evening, at the conclusion of the services in the Congregational church, the choir sang the new piece of music published by H. M. Higgins, Chicago—"Union, God and Liberty." The Light Guards were present in a body, and the music, admirably executed, was a fit accompaniment to a very able sermon from the pastor on the relation between religion and patriotism.

THE SECOND REGIMENT.—We understand arrangements have been made to have the Second Regiment, now at Madison, pass through this city on their way to the seat of war. They will probably start on Tuesday.—*Milwaukee Sentinel.*

Some of our citizens who were in Madison Saturday came to the same conclusion, after noting the indication of things. We may, perhaps, have something to say on this subject hereafter; we certainly shall, if the movement via Milwaukee is made.

DESTINATION OF ILLINOIS TROOPS.—The twelve accepted regiments of Illinois, now encamped in various parts of the state, are under orders for Quincy, Caseyville and Alton, so as to be ready to cross over into Missouri at an hour's notice. The 1st and 2d Iowa regiments are already in Missouri.

A STEAMSHIP DESTROYED BY AN ICEBERG.—The Montreal steamship Canadian, which sailed from Quebec on the evening of June 1st, for Londonderry and Liverpool, struck in a field of sunken ice, eight miles south of Bell Island, on the 4th inst., and sunk in thirty-five minutes. One hundred and eighty-one persons were saved in boats and landed on Cape Bauld.

The Missouri volunteer fund in New York now amounts to $14,885.

ALL SORTS OF PARAGRAPHS.

DEATH OF AN OLD SETTLER.—John P. Arndt, one of the pioneers in the settlement of this state, died at his residence in Green Bay last Monday in the 82d year of his age. He came to Green Bay in 1824. He built the first saw mill and the first sail vessel ever built west of Lake Michigan.

The English bankers are alarmed at the large indebtedness of their country to the United States. The amount of specie remitted us since the 28th of November last has reached the enormous sum of twenty nine millions of dollars. The Daily News admits that America "holds the strings of the specie movement in its hands."

In Genessee, Illinois, there is a disease prevalent among the cattle which good judges pronounce pleuro-pneumonia—the same which proved so fatal to cattle in New England last year.

Money as is money, i. e. the gold, is becoming quite plenty in Galena. Over $50,000 have been paid out within the last two weeks by Messrs. Mitchell & Cable, and it now in the hands of the people of that region.

Mr. Motley, the historian, whose spirited defence of this country in the London Times has been so favorably received by the friends of the Union on both sides of the Atlantic, is expected home by the steamer next week. He will make a brief visit to his friends and relatives in Massachusetts, and rejoin his family in a few months.

The British Squadron, soon to rendezvous in American waters, will out number, in men and guns, our entire navy now in active service.

THE MINIE RIFLE.—The first rifle in vogue in France was the so-called pillar rifle of Thouvenin; but the invention of M. Minie is the one which has practically revolutionized the fire-arms of the present day. The improvements made by M. Minie are confined almost wholly to the form of the projectile, and have very little reference to that of the gun out of which it is fired. The ball is of an oblong conical form, something like an acorn without its cup; but instead of being solid, this cone is hollowed at the base into a cup-like form. The advantages of this form of projectile are that it offers less resistance to the air than a round ball would, and that, having its center of gravity in the foremost part, it has no tendency to turn over in its flight; but its chief merit, in a military point of view, is that with it the rifle can be loaded as easily as the ordinary smooth-bored gun, the forcing of the ball into the groves of the barrel being effected by the explosion of the gunpowder and not by the ramrod. The form of the rifle proper for these conical missiles differs very little from those used with the old spherical bullet, except that a three-grooved rifle has superceded the old two-grooved gun, and it is still an unsettled question whether four grooves would not be better than three. With this weapon the soldier can make far better practice at five hundred, or even a thousand yards, than he could with the old musket at one hundred or two hundred yards.—*The Printer.*

HOW THE B'S STUNG THE CHIVALRY.—An intelligent officer of the Twenty-Eighth regiment, N. Y. S. M., writing from Arlington Hights, gives an interesting account of an interview he had with the five rebel prisoners brought into camp by Lieut. Tompkins and his dragoons of company B.

We give an extract from a letter from which it will be perceived that the charge of the dragoons left a lively impression upon the minds of the secessionists.

"Their account of the fight was amusing. I will give you one, from notes written secretly twenty minutes after I heard it. It is nearly verbatim:

"Talk about fighting! whew, my G—d! One company of them regulars or you New York fellows can whip a thousand of our men, by G—d, that's so; I'll swar it on a bible. You ought to have seen 'em. Look heyar, reckon I wanted to get out of the way. Sure's you're born they're just like devils—they don't mind shots. Lord they went down the street, where they cut an' slashed an' shot. Our boys ran like the devil—then J—s you ought to have seen 'em cut up the street again—like blue devils it makes my blood run cold to think of it.—They shot every way—knocked us from our horses; took our pistols and sabres away—my G—d, how they fit. Why, sir, I'll swar on a bible them South and North Carolina fellows that's with us aint no account. They won't obey nobody—no discipline—you'll lick them every time."

"There was much more of the same sort, and I send you this specimen, profanity and all included, so you may know what the rebel prisoners think, and how they talk.—I asked him what the rebels thought of our volunteers.

"Well," said he in reply, "they think you New York men are just as bad as the reg'lars, but they haint much opinion of the rest."

WHAT MASSACHUSETTS HAS DONE—AN EXAMPLE FOR THE WISCONSIN GIRLS.—The well-informed editorial correspondent of the Oshkosh Northwestern, writing from Boston, on the 7th inst., describes the war feeling in that city as absorbing business and everything else, and adds as to what Massachusetts has done, and what her daughters are doing in the way of economy:

Massachusetts, at present, so far as I can learn, stands about thus, just now: She has some six thousand troops at the seat of war, six thousand in camp, and waiting for orders to move, and about twelve thousand more accepted from the state, some of which are immediately to go to the state camp of instruction. In addition to these there are said to be tens of thousands, some say as many as fifty thousand, drilling in clubs, or organized companies, all over the state. There is a single body of some eighteen hundred gathered from this city and the immediate vicinity, who drill every day under an accomplished French officer. These men have no present intention of going to the war, but they intend to be ready if they are needed, and probably half of them would start next week, if there was any necessity. If arms could be procured, I have no doubt that Massachusetts could have, in thirty days from this time, at least thirty thousand soldiers in addition to those already in the field, ready to march to Baltimore, and better prepared, too, than the famous "sixth regiment."

Let me here give a piece of information not altogether unimportant either to the ladies or those who stand behind them in financial matters. The milliners and dress makers say that, like all the rest of the world, they are pretty much out of business. Their chief occupation now-a-days is in "altering over old things," so far as they have anything at all to do. If a young lady's father gives her $25 to buy a new dress, and $10 to make and trim it, she either has an old one made over or buys a shilling calico and makes it up herself, and then sends to Gov. Andrew the balance of the money. Dinner parties and all other parties are almost entirely dispensed with; the occupation of the hack driver is pretty much gone, and by common consent, folks go afoot, wear old clothes, and feel entirely content with plain fare and empty pockets.

OFFICIAL ACCOUNT OF THE GREAT BETHEL AFFAIR.—The official report of Gen. Butler, which we publish in full to-day, gives the details in a very satisfactory form of the action at Big Bethel on Monday morning. The intention of Gen. Butler in despatching the body of men under Gen. Pierce was to destroy the batteries erected by the rebels at Big Bethel, from which point they had been annoying the federal troops by scouting parties for some time past. In order to accomplish this effectually, it was necessary first to get possession of Little Bethel, where the outposts of the stronger force behind were stationed, and this was to have been done by a surprise, after which our troops were to have rushed on and taken the batteries at Big Bethel before the rebels were aware of any approaching attack. But owing to the unfortunate mistake of Col. Bendix's regiment in firing on the Albany regiment just before reaching Little Bethel, this design was frustrated. It appears that the different regiments had made their points of junction at the time appointed, and had it not been for the precipitancy of Col. Bendix in opening fire, and thus alarming the rebel forces at Little Bethel, there is little doubt that the successful accomplishment of Gen. Butler's plan would have been attained. As it was, however, the Albany regiment, supposing that they were caught in an ambuscade, returned the fire of the German regiment, and the Zouaves joined in the combat, thus giving notice of an attack to the outposts in the village. When the federal troops got into Little Bethel they found the place vacated. The garrison had fallen back on the principal point of attack—the intrenched camp at Big Bethel—and the batteries there were prepared to receive them when they came up. We know the result. What was intended to be a surprise turned out to be an engagement with terrible odds against our troops, and a contest in which they behaved most gallantly, though unable to attain their object from the want of artillery and ammunition. The loss on our side, however, proves to be less than at first reported—only fourteen being killed and about forty wounded; and the most deplorable feature in the list of killed is that six out of the fourteen fell by the fire of their own friends in the unfortunate collision before daylight near Little Bethel.—*N. Y. Herald, June 13th.*

Horses to be Hitched.

AN ORDINANCE to restrict the owners or drivers of horses attached to vehicles from leaving the same unsecured.

The Mayor and Common Council of the City of Janesville do ordain as follows:

SEC. 1. It shall not be lawful for any owner or driver, or any person in charge of any vehicle whatsoever to leave his horse or horses attached thereto, in any of the streets of this city, without first securing such horse or horses by means of a sufficient halter, rope or chain, or without some suitable person to take the charge or guidance of them so as to prevent their running.

SEC. 2. If any such person shall violate the provisions of the proceeding section, he and his employer or employers, jointly and severally, shall forfeit a sum not exceeding twenty dollars.

SEC. 3. It is hereby made the duty of each and every constable to inforce this ordinance.

SEC. 4. All horses so found running at large may be taken by said constable and held as contraband of war.
F. BARBERE, Clerk. J. B. DOE, Mayor.

DISSOLUTION.—The copartnership heretofore existing between the undersigned has been dissolved by mutual consent. JAMES H. KNOWLTON, M. S. PRICHARD, A. A. JACKSON.

Insurance against loss or damage by fire, on Dwellings, Furniture, Stores, Warehouses, Merchandise, Mills, Manufactories, and most other kinds of property, can be effected in this company upon as favorable terms as the nature of the risks and security of policy-holders will admit.

The above is the oldest company doing business in this state, and with peculiar propriety has been denominated "*The Old Hartford.*" As an *indemnity* to the insured, it refers to a solid million of assets well invested; and if anything were needed to commend it to the public for liberal patronage, we might offer its history of success in business and honorable dealing with its patrons, for over half a century, as amply sufficient for the purpose.

THE above are *First Class, justly popular, and prompt paying* companies. They invite investigation into their condition and solicit business entirely upon their real merits. In point of solvency and reliability and honorable dealing, they have but *few equals, and no superiors.* They are founded upon the very best securities in the world—first class bonds and mortgages upon property in New York and Brooklyn—securities that have not, for the past ten years, depreciated below par, and are every way more reliable and permanent than railroad, bank, and other stocks, which are subject to the fluctuations of the market, and liable, *in times of panic,* as the experience of the past teaches, to become almost, if not entirely, valueless. And while there are Companies entering the field of competition, well calculated to mislead by publishing *partial and one-sided* statements of their condition, and without a cash surplus on hand sufficient to reinsure their outstanding risks, the above named companies always have and keep over and above their capital *twice* the amount, and in most instances *four* times, needed for the reinsurance of all their risks. With such a foundation, and with such a condition, they claim the right to look with confidence to the public for liberal patronage.

Policies issued without delay, and farms risks for a series of years taken at less rates than can be done by Mutual Companies, and a *certainty* given instead of an *uncertainty.* All losses promptly adjusted and paid.

New York Life Insurance Company,
CASH CAPITAL OVER - - $1,800,000

all well invested for the benefit of Policy holders, so that the profits of this vast sum pay a large proportion of their annual premiums. This is unquestionably the very best Life Company doing business in this state.

Cephalic Pills CURE Sick Headache! CURE Nervous Headache CURE All kinds of Headache.

By the use of these pills the periodic attacks of *Nervous or Sick Headache* may be prevented; and if taken at the commencement of an attack immediate relief from pain and sickness will be obtained.

They seldom fail in removing *Nausea* and *Headache* to which females are so subject.

They act gently upon the bowels,—removing *Costiveness.*

For *Literary Men, Students,* delicate females, and all persons of *sedentary habits,* they are valuable as a *Laxative,* improving the *appetite,* giving *tone* and *vigor* to the digestive organs, and restoring the natural elasticity and strength of the whole system.

The CEPHALIC PILLS are the result of long investigation and carefully conducted experiments, having been in use many years, during which time they have prevented and relieved a vast amount of pain and suffering from headache, whether originating in the *nervous* system or from a deranged state of the *stomach.*

They are entirely vegetable in their composition, and may be taken at all times with perfect safety without making any change of diet, *and the absence of any disagreeable taste renders it easy to administer them to children.*

BEWARE OF COUNTERFEITS!

SUBJECTS OF PATENTS.

"INVENTORS are public benefactors. To be liberal in their protection, is only to be just towards the rights of property, and tends to increase the public wealth and hastens the progress of practical improvements and of science. * * * The settled doctrine of the courts, now, under the light of large experience, is, to incline to constructions most favorable to patents."—*Extract from opinion of U. S. Court in a late Patent Case.*

Three-fifths of the earth's surface is covered with water. Vast sums of money and the best mechanical and engineering skill has, for ages, been employed to perfect machinery to bring this universal and indispensable element into convenient use.

May's Patents.

Double and Single Acting Pumps.

For any depth of mining shafts and wells, *open or drilled,* to 500 feet.

No suction pipes, no packing, no bolts, no pumping rods.

Are composed of *two metalic cylinders and two brass valves,* and *wrought-iron* conducting pipe.

Are operated by a wrought-iron lever, and by means of a compensating balance device, they work very easy by hand, wind mill or other power, at whatever depth, and work without noise.

They *cannot freeze.*

Save Repairs, Vexation and Expense!!!

Those longest in use (about 2 years) need no repairs and exhibit no perceptible wear, and possess valuable qualities unknown in any other pumps.

"Blow winds and crack your cheeks! rage! blow!"

From the favorable opinions of Agriculturalists and others using these Engines and Pumps, together and separate, the following are selected:

Pumps, Without Engine,

In a half hour at ordinary pumping speed, I supply my stock of from forty to fifty head of cattle and horses, with one of May's Patent Pumps. Well 70 feet deep, last 30 feet drilled. I can find no fault with this pump, and use it in place of another kind that was very often out of repair. Being composed of few and streng pieces, and built on scientific principles, I think they must be very durable. R. W. SCHENCK.

Bradford, Rock county, Wis., January 29th, 1861.

I supply with water 690 sheep, some 60 head of cattle and 10 head of horses, with May's Patent Pump. Its *great strength,* apparent durability and above all the great amount of water it raises in a short time, and its easy working, gives it with me a decided preference over any other pump in the market.

C. M. CLARK.

Whitewater, Walworth Co., Wis., Jan. 31st, 1861.

Since the 1st of October last we have been using one of May's Patent Pumps, and it gives us entire satisfaction. Our well is 126 feet deep and the pump is worked by horse power or by hand. In addition to pumping water for stock and farm purposes, we use large quantities for our Brewery. REEVES & WADDLE.

Middleton, Dane county, Wis., Jan. 22d, 1861.

I am using one of May's Patent Pumps in place of a deep well pump of another kind, that was often out of order and worked hard. Well 122 feet deep, 72 feet drilled in solid rock, and pump placed 101 feet from surface. Its great strength and simplicity pleases me, and am surprised and gratified with the large amount of water raised with little labor, 6 to 8 full strokes of the lever filling a bucket. I deem it one of the most valuable improvements of the age for raising water.

JOHN TRACY.

Center, Rock county, Wis., Feb. 27th, 1861.

Pumps, With Engines.

I am using one of May's Patent Pumps and Self-Regulating Wind Engine (or Mill) on one of my farms near Janesville. Well 83 feet deep. Pump and mill used together, or may be separated in a moment. One to two hours daily is sufficient to pump water for my stock. Also, the pump works very easy by hand and is the first one, after trying different kinds, that gives me *entire satisfaction.* Having no *bolts, packing, suction pipe, or pumping rods,* and being made *heavy* and *strong,* think they must be very durable. A. HOSKINS.

Janesville, Jan. 11th, 1861.

I am using a wind engine, and pump of May's patent in a well 65 feet deep. I deem them very valuable improvements, and agree with Mr. Hoskins in the above expressed opinion. I had been using a Seneca Falls pump that did not answer my purpose.

WM. SCHENCK.

Bradford, Rock Co., Wis., Jan. 24th, 1861.

Engines.

Rock Terrace, Wis., Feb. 6th, 1861.

Since November 1858, I have been using one of May's Patent *Wind Engines,* pumping water from a well 185 feet deep. The Engine is a powerful one, often pumping fifty barrels of water per day. It stands 110 feet from the well and the power is communicated from the Engine to the well, underground.

I deem these Engines of great value, saving a vast amount of hard manual labor, and as their merits are understood, think they must come into general use.

J. V. ROBBINS.

These pumps and engines have taken first premiums when exhibited in competition at state and county fairs.

Write for price lists &c., and if estimates are wanted give depth of well—open or drilled, and amount of water required. Address as above.

Also for sale, the Patents in the unsold territory for Badger's Portable Grist Mill, Gilmore & May's Rock Drill, Stone Dressing Machine and Quartz Rock Crusher, and Nash & Cutts' Grain Separator. All late Patents, are meritorious and sell freely. Address,

J. M. MAY, Agent, &c., as above.
